RACK LiFePO4 BATTERY MODULE ENERGY STORAGE SYSTEM -FOR RESIDENTIAL AND SME

Introduction of the Rack Mounted LiFePO4 Battery

The LiFePO4 Server Rack Battery has revolutionized how businesses store and use energy. PKENERGY 4U 51.2V 100AH Rack Mounted LiFePO4 Battery is a reliable and efficient energy storage solution, designed to provide a consistent source of power for a wide range of applications.

Features of the Rack Mounted LiFePO4 Battery

PKENERGY 4U 51.2V 100AH Rack Mounted LiFePO4 Battery uses highly reliable lithium battery cells, ensuring a long cycle life and consistent performance. Its advanced Battery Management System (BMS) enhances system performance, prolongs battery life, and guarantees safety. The battery packs

come in various sizes and are easy to install, with customization services available for panel options. Additionally, they can be used in parallel expansion for large-capacity applications.

Parameter of Rack Mounted LiFePO4 Battery

No.	Item	General Parameter	Ren
1	Combination method	16S1P	51.2V
